

SET 8 – EMPLOYEE PERFORMANCE ANALYSIS

DSA0601 – DATA HANDLING AND VISUALIZATION

Student Name	N. Harshith
Register Number	192325078
Department	Artificial Intelligence and Machine Learning (AIML)
Course	Data Handling and Visualization
Set	8

Dataset

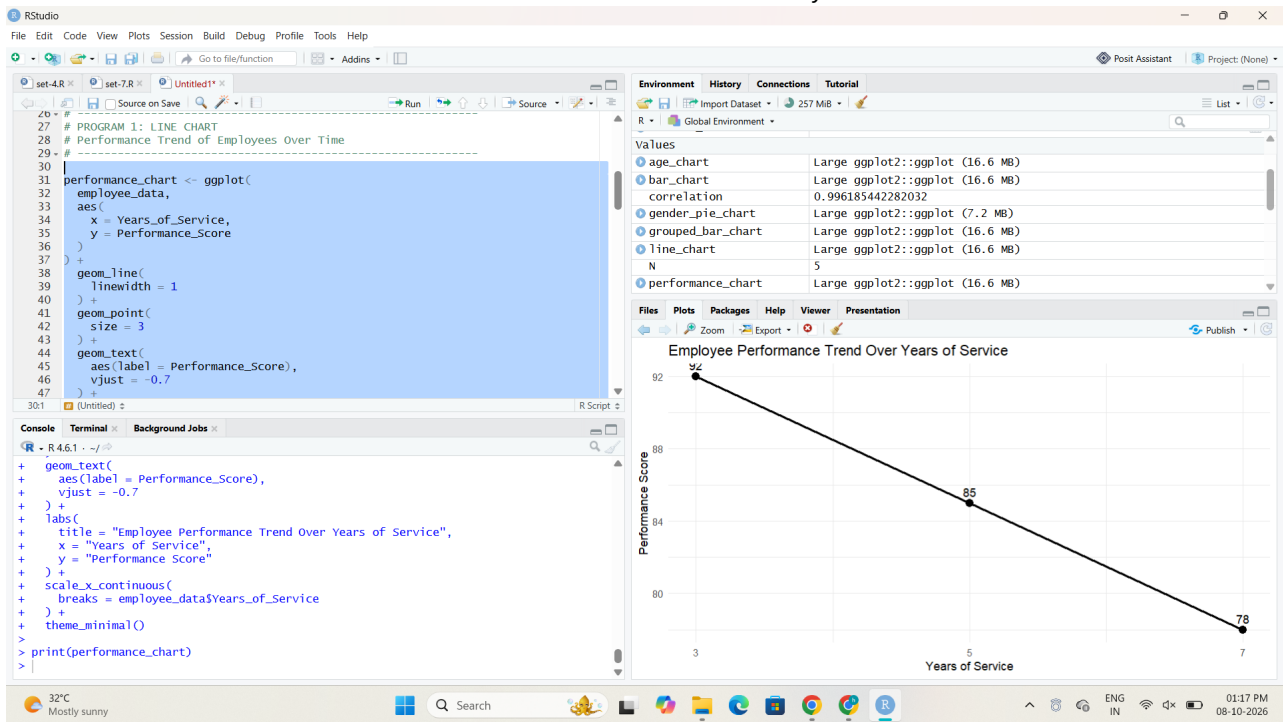

Employee ID	Department	Years of Service	Performance Score
1	Sales	5	85
2	HR	3	92
3	Marketing	7	78

Objectives

- Create a line chart to visualize employee performance trend over years of service.
- Generate a bar chart showing the distribution of employees across departments.
- Build a table displaying performance data for each employee.
- Develop a Tableau dashboard combining the line chart, bar chart and table.

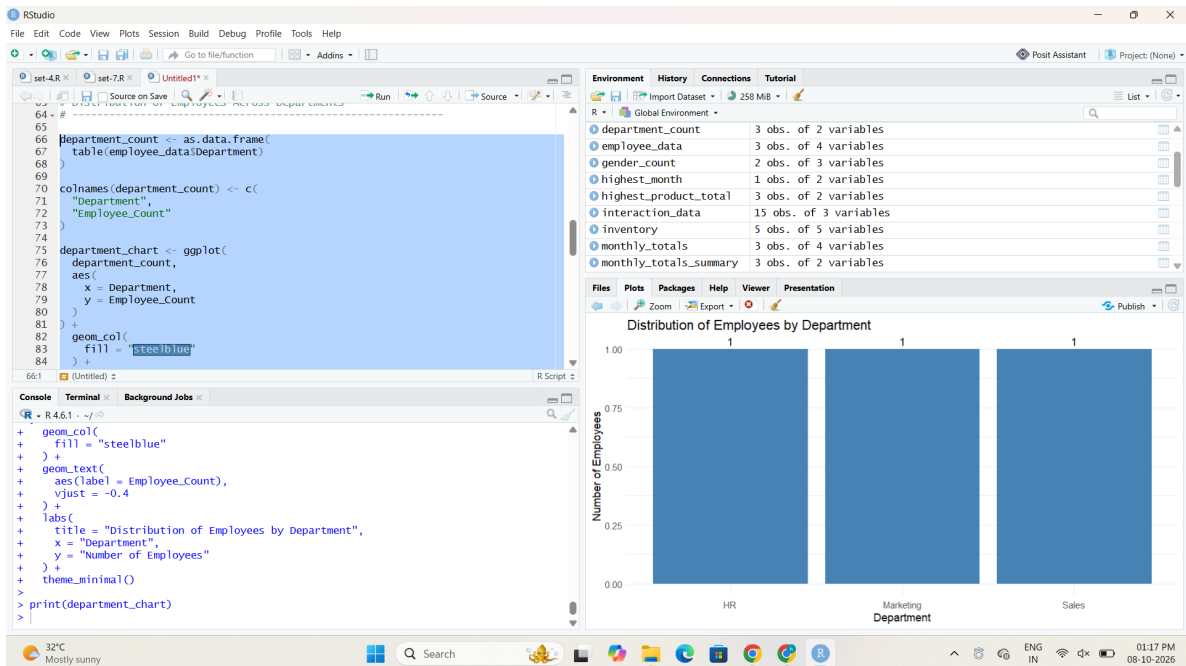

PROGRAM 1 – LINE CHART: EMPLOYEE PERFORMANCE TREND

The line chart uses Years of Service on the x-axis and Performance Score on the y-axis.

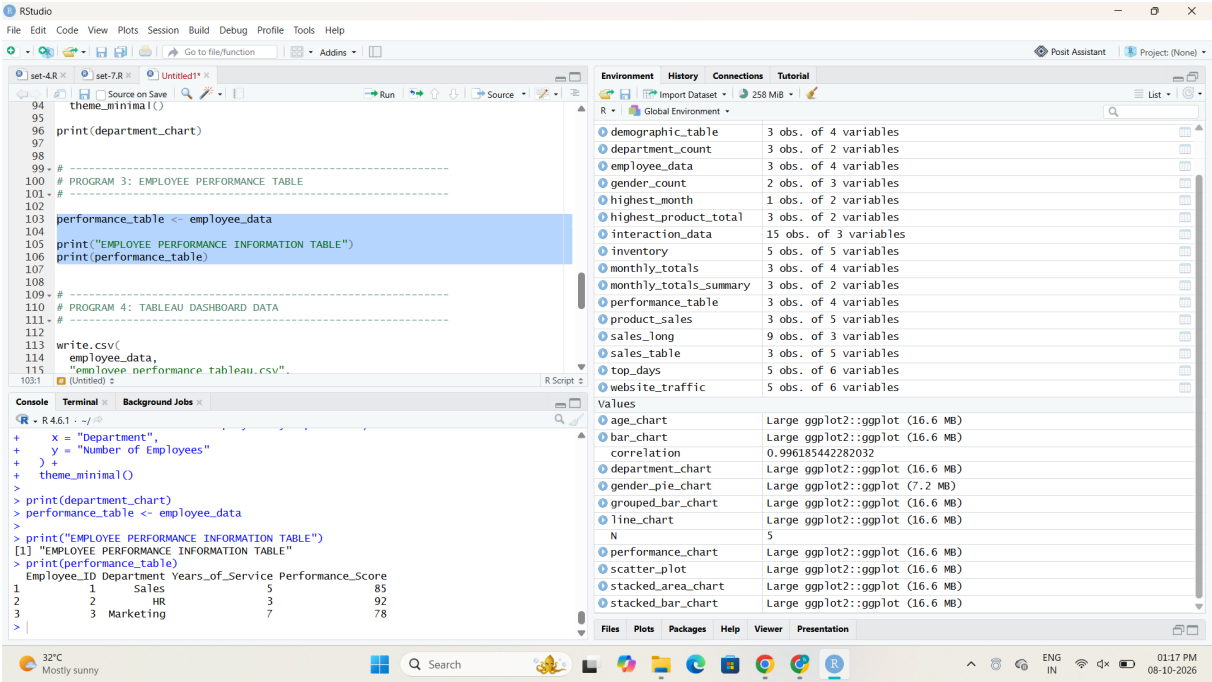

Result: Performance scores are 92, 85 and 78 for 3, 5 and 7 years of service respectively.

PROGRAM 2 – BAR CHART: EMPLOYEE DISTRIBUTION BY DEPARTMENT

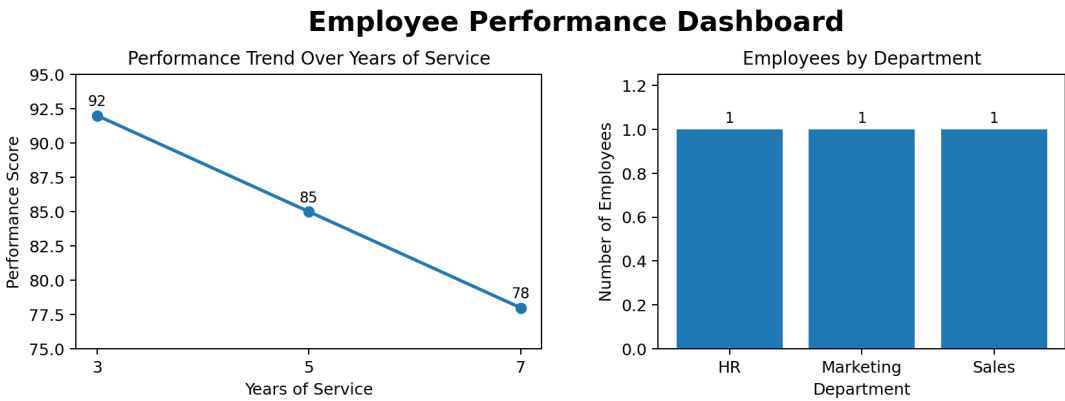

Result: HR, Marketing and Sales each contain one employee.

PROGRAM 3 – EMPLOYEE PERFORMANCE TABLE

The table displays Employee ID, Department, Years of Service and Performance Score.

PROGRAM 4 – TABLEAU DASHBOARD

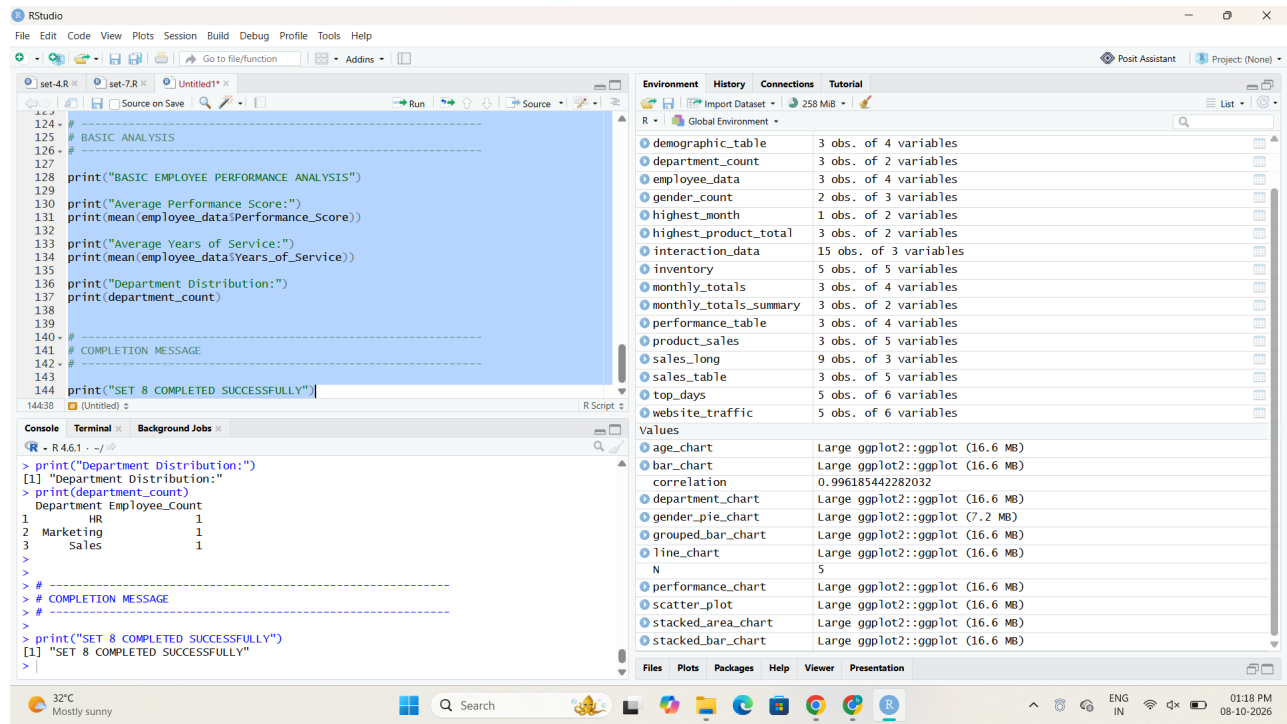

Employee ID	Department	Years of Service	Performance Score
1	Sales	5	85
2	HR	3	92
3	Marketing	7	78

Illustrative Tableau-style dashboard based on the supplied dataset

Illustrative Tableau-style dashboard combining the required line chart, bar chart and performance table.

RESULT AND ANALYSIS

Key Results

- Average Performance Score = 85.
- Average Years of Service = 5 years.
- HR, Marketing and Sales each have 1 employee.
- The highest performance score is 92 at 3 years of service.
- The lowest performance score is 78 at 7 years of service.

Conclusion

Employee performance data was successfully visualized using a line chart, bar chart, performance table and a combined Tableau-style dashboard. The visualizations make it easy to compare performance scores, years of service and department distribution.
